

Abdulaziz Alodhayb

Aspiring SOC Analyst | IT Support Technician

Al-Qassim, Saudi Arabia | azalodhayb@gmail.com | +966 56 607 6849

PROFILE

IT graduate with a strong interest in cybersecurity and SOC operations, backed by hands-on first-line IT support experience. CompTIA Security+ certified with foundational knowledge of threat detection, incident response, phishing analysis, security monitoring concepts, and network troubleshooting. Motivated to grow in a junior SOC analyst or IT technical support role.

FOCUS AREAS

SOC fundamentals	Network analysis
Security monitoring concepts, threat detection, event investigation, phishing identification, and incident response	TCP/IP, DNS, DHCP, HTTP/HTTPS, IP addressing, subnetting, and connectivity troubleshooting
IT technical support	Tools and teamwork
First-line troubleshooting, Windows setup, software and driver installation, printers, peripherals, and user support	Foundational Wireshark packet inspection, Windows and Linux fundamentals, Git/GitHub, documentation, and structured problem-solving

EXPERIENCE AND EDUCATION

Jun 2025 - Jul 2025	IT Support Intern - TVTC, Al-Rass Delivered first-line support for employees; diagnosed workstation and hardware issues; installed and configured computers, printers, and applications; performed routine maintenance; and documented resolutions to minimize downtime.
Sep 2020 - Jan 2026	Bachelor of Information Technology - Qassim University College of Computer GPA 4.19 / 5.00

PROJECT

Taboor - Queue Management System

Security-minded systems project | Sep 2025 - Jan 2026

A queue management system where I focused on security-minded data handling and supported the database work behind a clear digital workflow.

- Helped structure queue data and support the relational database design.
- Considered reliable handling of user and queue information during project work.
- Supported testing, documentation, and team delivery through Git-based version control.
